ALBOND

Albond is a Kemah Group investment. Experience of 50 years is refined and serving partners in aluminium composite panel and pre-painted aluminium industries.

Albond historically Started 50 years ago as a supplier and manufacturer in advertising and sign industries.

Establishment was namely Sistem Metal and recently group of companies including Sistem Metal formed Kemah Group and started to use Albond as the face of the company.

Albond concentrated all its power in aluminium composite panel production and sales more than a decade ago. Each and every year expanded the product portfolio and capacity with new investments in technology and human resources.

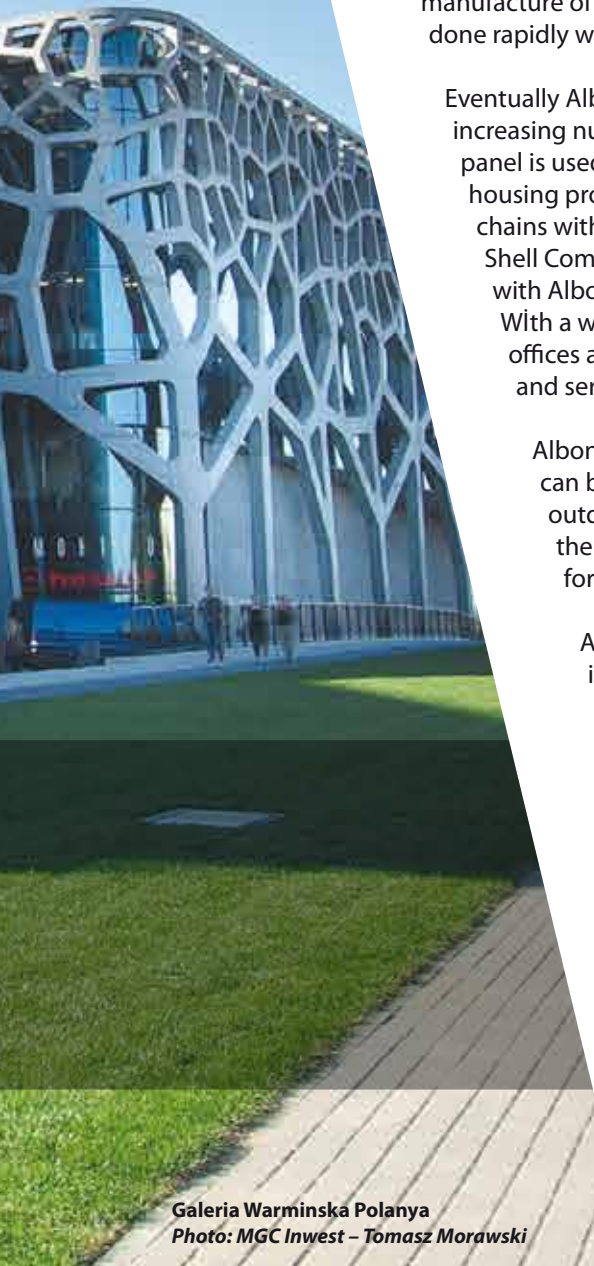

Ever since the first day of establishment Albond continuously has served partners with products and services. As of 2014 a very experienced team of 160 people work with an installed capacity of 4,5 M square meters of Aluminium composite panel, 25.000 MTons of pre-painted aluminium and extra service facilities slitting, cut to length and paint mixing unit. As a result under the same roof a very flexible manufacture of aluminium composite panel is done rapidly with efficiency.

Eventually Albond serves in a large area for an increasing numbers of partners. Albond composite panel is used at prestigious shopping centres, large housing projects and important gas station chains with confidence. For instance Shell Company clads all the gas stations with Albond composite panels. With a wide network of representative offices all around Europe all products and services are at every point.

Albond aluminium composite panels can be used safely and confidently outdoors and indoors and protect their quality as the first day of use for many years.

Albond prioritises and continuously increases the quality in order to serve partners and end users with better products. This afford is crowned by many international authorities and nominated certificates.
