aluminium composite panel

**METALLOOK**

# METALOOK

At Albond, we pride ourselves on our unwavering commitment to sustainable building solutions through our premium aluminum composite products. Our distinctive offerings come in a diverse array of colors and can be enriched with unique functional coatings, each playing a pivotal role in advancing sustainable green building design.

The foundation of a sustainable building envelope is crucial for minimizing primary energy consumption in heating, cooling, and maintenance. This, in turn, elevates the aesthetic appeal and lifespan of facades, roofs, and building envelopes. Albond remains steadfast in our dedication to environmental responsibility, ensuring our products are fully recyclable at every stage of production and at the culmination of their lifecycle.

With almost 20 years of specialized expertise in aluminum coating and precise color matching, we are well-equipped to provide reliable guidance on product specifications. Our experienced team meticulously oversees every facet of the process, from production to delivery, contributing to the realization of your unique architectural vision. Opt for Albond for environmentally conscious, high-performance building solutions.

**Metalook:** The Metalook family brings an industrial aesthetic to life by capturing the essence of aged and weathered metal textures. Mimicking details such as Corten and Patina, these panels not only give spaces a unique character, but also stand out for their durability and low maintenance requirements.
